DAVID R. MURRAY,
REV. J. L. EDRINGTON, } EDITORS.

HON. J. PROCTOR KNOTT

Is a candidate for re-election to the Lower House of CONGRESS, subject to a Democratic Convention, should one be called.

The Hon. and Rev. before the names of the editors at the head of our columns, last week, were placed there without the knowledge of those honorable and reverend gentlemen. They didn't do it.

PUBLISHER.
If all the poetry and other contributions to the News is not published, don't blame Mr. Babbage, just attribute it to the bad taste of the editors.

We understand there are reports in circulation in the country that there is yellow fever in Cloverport. There is no truth in the reports.

Some of our correspondents think it very well to have conventions in political races, but think they are abundant in county races. If conventions prevent trouble and secure good men in political races they will prevent trouble and secure good men in what is termed county races.

One correspondent says, "what matters it to poor debtor what magistrate entered upon the fifteen shilling judgment against him or what constable levied it upon his rope traces or shuck collars or whether those officers are Democrats or Republicans," etc., etc. We suppose when it gets to that point it doesn't matter much, but we have an idea that it matters a great deal to him when that "poor debtor" votes, to know whether he is by his vote encouraging and building up men who, by their political teachings, are building a policy that makes him a "poor debtor"—whether he is advocating a man who advocates a political doctrine that works his ruin, whether the magistrate or constable that is to enter judgment and levy, has had any hand, through his political views and teachings, in bringing him to the point of starvation, whether that magistrate or constable has helped to John Sherman him.

The "poor debtor" doesn't want the men to be his administrators who have helped to work his financial death, nor does he want the undertaker to be the man who administered the poison, nor does he want the psalm sung at his financial grave by the voice that preached the doctrine that caused his death, nor does he want the dirt thrown in the grave with the spade that dug it.

Some persons say there is no difference in the Democratic and Republican parties. Those that say this have not looked very far.

The Republican party declares this country to be a Nation. This means a centralization of powers, a total demeritization of State Rights and eventually a virtual monarchy. The Democratic party declares it to be a Union of States. Such as was intended by the framers of the Government. This means continued prosperity in the good old way of our fathers. One very and most important difference. Again a party that placed by usurpation R. D. Hayes in the Presidential Chair can not truthfully said not to differ with a party that has always fought usurpation and fraud. Again, a party that has for its leaders such men as John Sherman, who are grinding out the life of labor in a mill the burrs of which are made of the hard earnings of those whom they grind, the water which runs it being the sweat of honest toil and the fuel which blasts under its boilers being the cries of the distressed can not be said not to differ with the party, whose banner motto is "equal rights to all, exclusive privileges to none."

Stand John Sherman, a Republican, and Dan Voorhees, a Democrat, up together and behold the difference. One tolling against the people, the other laboring in their behalf.

Hon. J. Proctor Knott has made several speeches in this county. He—well, it is no use to say again what he has said and time again what everybody knows to be true, that his speeches are full of logic, reason and rhetoric, are masterly, powerful and eloquent and full to the brim of true Democracy. Mr. Knott is one of the few great men of the day and his district is proud of him and his representative.

No Democratic convention has been, nor do we suppose will be called in this Congressional District to nominate a candidate for Congress. Thus far Mr. Knott has no opposition. Mr. Knott has been an honor to his district and his successor, whoever he may be and whenever he may succeed him, will have a hard place to fill.

Hon. James A. McKenzie has carried the county of Union at the primary election, which secures him the nomination for Congress in the 2nd District. We congratulate him and must say that the District has not been so successful.

We have learned that it is the intention of the Republicans of the county to try to carry this county for Mr. Bolden, the Republican Nominee for Congress in this District. This should be held enough to awaken every Democrat and secure his presence at the polls to defeat the scheme.

The school in Cloverport opened Monday, Sept. 2nd, with a full corps of fine teachers. It commenced well, and has been improving ever since. Any young gentleman or lady who wishes to prepare for teaching or any other vocation has, in this school, a fine chance to do so. All the branches taught in the high schools through the State are taught in this school. Boarding is cheap, and can be had in the best families in town. The location is healthy, and the society good. Tuition as cheap as can be had anywhere.

A CARD.

With the end of our first year in business in Cloverport, we are impelled to extend to our numerous patrons, friends and the public generally, our heartfelt thanks for the very liberal patronage bestowed. We must at the same time congratulate ourselves with the knowledge that our more than expected success has been due mainly to our modern mode of doing business. We are sure that this mode has been as beneficial to our customers as it has been gratifying to our seekers.

The Cash system, inaugurated by us, has become so well known and liked that it seems to require only mere mention in this connection. With the beginning of the second business year, we take great pleasure in announcing that our sanguine expectations have fully prompted us to a perfect understanding of the situation. Our facilities for doing an increased business in all our various departments will be bettered in every particular known to men who make success a study.

We are now able to inform our many friends that we will at once take possession of the large hall (50 feet by 75 feet) above our two store rooms and prepare it for a large and well selected stock of Ready Made Clothing, Gents' Furnishing Goods, Boots, Shoes, Hats, Caps, Carpets and House Furnishing Goods.

We are fully determined, and we use the word in the full sense of its meaning, to make it of interest to every purchaser and consumer within the scope of the trade to do business with us. To do this we ask you to give our stock a personal examination and we feel sure we do not miss the mark when we say that you will be convinced that we are in earnest and not merely making statements calculated to mislead the public.

In the country produce line we shall continue as heretofore to offer the market price. In Cash or trade.

All goods delivered within the Town limits or to the river, free of cost. We always take pleasure in showing goods.

J. P. SULZER & BRO.

From all parts of the country reports come of the immense sales and increasing demand for that deservingly popular Sewing Machine, The Old and Reliable "SEWING," the price of which the proprietors have reduced to \$23, including all the attachments, and at once secured for them a popularity among the people far beyond that ever yet attained by any other machine at any price, the consequences of which, agents are leaving the old high priced machines, and seeking territory for the "SEWING." Knowing from experience that with the best goods at the lowest price they can sell all other Machines, where the superior quality and low price is made known. This Sewing Machine, combines all the improvements, is far ahead of all others in beauty and durability of its work, ease of management, light running and certainty of operation, is sensibly made upon sound principles, with positive working parts all steel, and can be safely put down as the very perfection of a Serviceable Sewing Machine, in every particular, that will outlast any Machine, and at a price far below what any other Machine can be had for five years. Kept in order free of charge. And sent to any part of the Country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families desiring the best Machine manufactured should write direct to the Factory. And entreprising persons wishing to seize the chance, should apply to some desirable agency. Send advertisement in another part of this paper. Address: Standard Machine Co., Cor. Broadway and Clinton Place, New York.

"THE LOVER CARRIAGE."—A magnificent picture 14 x 18 inches in size, beautiful in design and artistic in execution. It represents a cavalier soldier after the war returning to his home which he finds lonely and desolate. In front of the ruined cottage, telling a tale of the miseries of war, are two graves with rude crosses, on one of which some friendly hand has hung a garland. To the right the calm river and the rising moon in dense peace and rest. The stars, seen through the trees, represent the Southern Cross. It is a picture that will touch every Southern heart, and should find a place in every Southern home. One copy sent by mail, mounted on a roller and post-paid, on receipt of 25 cents, three for 50 cents, or six for \$1.00, in currency or postage stamps. Address: Robert, Burrow & Co., Bristol, Tenn.
